7. Committee Reports:

A. Human Resources Committee - Met Monday 2/21/21

Report, discussion and decisions presented of HR recommendations regarding the February 2021 compensation study. HR met to discuss the competitiveness of wages for current library professional and paraprofessional employees.

At the board's request and the January Library Board meeting, Ms. O'Brien developed a Compensation Study. Such a study had not been done for several years. The study was presented to the Human Resources Committee on 2/21/21, and the committee voted to recommend the reinstatement of a 4-year step structure for wage increases to the full board. Ms. O'Brien presented the extensive 40- page study, which outlined the history of the current wage structure, and comparisons of current wages with those on the national, state and local level of similar job descriptions. Ms. O'Brien pointed out in the compensation study that the library had to cease using the step structure in 2009 during the great recession, and the library had not been financially able to reestablish the step structure to date. It was pointed out that the City of Greenfield had continued to use the 4- year step structure in its annual *Resolution to Set the Salaries and Benefits*.

The compensation study presentation included the library director's recommendation that a 4-year step increase structure be reinstated in order to keep staff salary wages competitive. There was discussion of the 2021 2% wage increase received by all library staff and City non-represented employees; and the granting to 6 library employees whose hourly wage was below \$15.00 an increase to \$15.00 per hour.

After discussion, there was consensus that the full board would need more time to look over the large document and also need some additional information. The Library Board also felt that the Building Committee would need to meet to give input on possible larger scale projects and needs forthcoming that would require funding to as well.

Motion by Ms. Czaplewski, 2nd by Mr. Flemming, to table this discussion and bring the HR Committee recommendations to a vote at the March meeting.

Board members agreed to also review the compensation study and submit any questions to Ms. O'Brien for additional clarification at the March meeting. Motion carried.

Discussion of the Building Committee members' walking tours of the Library, and their assessment of the facility's cleanliness, furnishing condition, lighting, structural conditions, and any other observed issues, including Covid-19 response planning such as spatial arrangements and social distancing for public and staff:

Committee members had individual tours of the building with Ms. O'Brien. The tours focused on making an assessment of building needs, areas of concern, cleanliness, and needed equipment repairs. Each committee member gave an overview of their tour to the board along with their observations and concerns. Ms. O'Brien presented cost estimates for several areas of concern.

The committee recommended the following projects be approved for completion in 2021, paid for from the operating budget fund balance:

- South stairwell heating unit replacement (\$9,600)

The Building Committee also had concerns regarding Ms. O'Brien's report on the deteriorating condition of an HVAC system component; and the recent recommendation

from the HVAC maintenance contractor that the 2 boilers be replaced to address condensation leaks and pan corrosion, multiple burner failures, and poor efficiency over many years.

Building committee members recommend that this replacement should be completed in 2021, since a total failure during the winter would require closing the library.

Ms. O'Brien stated that the first quote for the boiler replacements was \$69,000; due to the cost and scope of this type of project, generally the capital budget is the source of funding.

Motion by Ms. Czaplowski to instruct Ms. O'Brien to investigate with the City what options there are for funding this unexpected capital expense within the current year.
Second by Ms. Mendoza.

8. Old Business

- A. Report, discussion and decision of the Human Resource Committee recommendations regarding the February 2021 compensation study to evaluate the competitiveness of wages for current library professional and paraprofessional employees.

Ms. O'Brien referred to the compensation study she presented at the February meeting prepared at the board's request. She stated that her current report will seek to address concerns raised by board members in February.

As background, Ms. O'Brien stated that the City and Library historically have utilized a steps incentive wage structure for newly hired employees. In 2010 during the great recession, the library found it necessary to cut hours, furlough staff, and set aside the steps incentives for new employees. In subsequent years, the library struggled to reach adequate staffing for the full service library that was opened in 2009, and was unable to afford to resume the steps incentives.

Ms. O'Brien noted that the City of Greenfield continues to use incentive steps to compensate non-represented employees; and that since 2010, library positions have become increasingly uncompetitive in wages; she recommended that the steps incentive structure be reinstated as follows:

LIBRARY STEP INCENTIVE INCREASES FROM HIRE THROUGH YEAR 4 Library Board Approved 3/18/2021					
	Training	7-12 mo	13-24 mo	25-36 mo	37+ mo
Assistant Director	\$25.00	\$25.88	\$26.78	\$27.72	\$28.69
Business Manager	\$18.00	\$18.63	\$19.28	\$19.96	\$20.66
Cataloger	\$20.00	\$20.70	\$21.42	\$22.17	\$22.95
Reference Librarian	\$22.00	\$22.77	\$23.57	\$24.39	\$25.25
Storyteller	\$18.00	\$18.63	\$19.28	\$19.96	\$20.66
Circulation Clerk	\$15.50	\$16.04	\$16.60	\$17.19	\$17.79
Shelver	\$15.00	\$15.53	\$16.07	\$16.63	\$17.21

Ms. O'Brien presented an overview of the costs to reinstate the step increase incentive plan and bring those eligible, both new and existing employees, to the new step wage rate over the next 5 years; she stated that the increased costs could be absorbed within the current salaries and wage budget line as the library emerges from the Covid-19 pandemic reduced service levels.

Motion was made by Ms. Czaplewski to approve implementing the Step Incentive Increases for Library Staff and approving moving those eligible to their proper level effective April 1, 2021. Second by Mr. Flemming.

Roll Call vote taken and approved unanimously by those present.

Collins gave input that the Council would be addressing this again at the May 4th meeting along with the Health Director, who is monitoring Covid-19 trends closely. Sheila O'Brien's investigated of a few options for funding of the new boilers:

- Paula Schaefer, Greenfield Finance Director reported to Ms. O'Brien that the boiler project would not qualify for ARPA.
- Tom Dragotta at Focus on Energy reported that qualification for rebates is based on high efficiency projects. He stated that a rebate up to \$3,600 based on BTUs would be available to the Library. There would be

no rebate for the stairwell heater project since it is based on electric heating. He also reported that there could be significant incentives for solar panels if we consider this as a long term project. Mr. L'Amie suggested looking to join with Police and Fire to do all buildings as a joint project.

- Ms. O'Brien will continue to look into options like the Community Development Block Grant program. More research to be done this month.

- B. Report, discussion and decision regarding the current Library Mask and Social Distancing Requirement Resolution in light of the CDCs May 13th face mask and social distancing guidance update for persons fully vaccinated against Covid-19.

Ms. O'Brien reported the Common Council eliminated the mask mandate for City buildings, and is following current CDC guidelines allowing fully vaccinated persons over 12 years of age to enter City buildings without a mask or social distancing. OSHA has not updated their guidelines for workplaces yet. The Library staff has worn masks since March 2020. Ms. O'Brien recently did a survey asking staff their preferences regarding fully vaccinated employees continuing to wear masks or not. She estimates that 90% of staff members are vaccinated. The survey found that 73% of staff voted to keep the mask requirement, and their comfort levels for working without masks varied. Ms. O'Brien also reported that multiple patrons have made issues of mask wearing throughout the pandemic--every week or two administrators have needed to address an instance of mask resistance.

The board proposed that the Library keep the mask mandate in place for now and discuss and update this policy each month going forward.

Motion by Ms. Czaplewski, Seconded by Ms. Mendoza
Unanimous vote by those present.
Motion carried.

10. New Business

Ms. O'Brien reported that a candidate for the upcoming library board vacancy has submitted a letter of interest and resume. More information will come on this during the June meeting.

11. Next Meeting - Thursday, June 17, 2021 – The board members agreed to plan to meet in person. If anyone prefers to join via Zoom, please let Ms. O'Brien know.
12. Library Director's Report.

- A. Ms. O'Brien reported that the Library Summer programming will all be virtual, and will utilize the online service "Beanstack" for registration and tracking of books read for the Summer Reading program. Plans are to resume in-person activities in the Fall if health conditions allow.

Two outdoor activities will be held this summer—Outdoor Family Story time at the Amp and an Art Fair in August on the Library parking lot.

- B. Report and discussion on the status of national, state and local financial conditions amidst the economic recovery from the Covid-19 pandemic as they may impact 2022 budget planning: Ms. O'Brien suggested that development activities in the 27th Street corridor would be something to watch for local impact. On the state and national levels, more information about financial aid to state and local government will be clarified over the next several months.

- 13. Adjournment - Meeting was adjourned at 7:48pm
Motion by Ms. Czaplewski, seconded by Ms. Bruhn

The Mayor is asking the library board to amend the "other funds" (from the Quality of Life fund) budget request from \$50,000 to \$40,000. No action was taken at this time regarding the \$10,000 reduction in 2022 revenues, pending the release of the Mayor's Executive Budget.

9. Old Business: None.

- A. Report, discussion and decision of the Art Enhancement project.
Ms. O'Brien reported that the RFPs were released in July. No proposals were submitted. One artist came in and gave us a sample of a mobile for presentation but did not submit a formal proposal. Two other artists that had previously expressed interest, declined the project due to the small budget we had to work with. Ms. O'Brien will investigate other options for the art project –perhaps using local schools, colleges, art groups and other resources that were recommended by board members.

10. Library Director's Report:

- A. Report and discussion of library services during the Covid-19 health emergency.
Ms. O'Brien reported that there has been little pushback lately regarding the mask policy due to the spike in Covid that started when the school year began. The library is still doing curbside services and hybrid in-person and online programming. Following review of the Library Mask and Social Distancing Resolution policy, it was decided to extend this resolution until the Library Board sees evidence the Covid-19 health conditions are safer. For now, masking and social distancing will continue for all patrons but those 2 years old and under and for those not able to mask due to medical restrictions. It was suggested to add notes to the mask signs for clarification that curbside services are available for those not wanting to wear a mask. Also, Ms. O'Brien has indicated that they have relaxed some of the group meeting rules pertaining to the Community Room use, allowing attendance of 50 or less. Youth story time programs have resumed in-person sessions, and are supplemented with online posting of the sessions. The in-person sessions require advance registration and social distancing.

Motion carried.

Ms. O'Brien reported that the current strategic plan was developed for the years 2017- 2021. Due to the pandemic, no action has been taken on the plan since March 2020. She suggested a future meeting to look at the parameters and see if the existing plan is still current and meaningful given how much social and economic change has occurred. The board requested Ms. O'Brien report back which initiatives have been met and which remain unmet. Should it be deemed necessary begin work on a new strategic plan, she suggested a planning professional be hired to assist in the process.

9. Old Business:

She would also like to consult with a professional to make sure that the movement of the mobile would not interfere with the motion detection system. Ms. O'Brien informed the board that Mr. Steven J. Haas has submitted an RFP indicating that he would design a mobile within our budget similar to the sample provided. The mobile would have an estimated maximum diameter of 14' with a height of 7' to 8', and an estimated weight of 20 pounds. It will be made of lightweight aluminum. Ms. O'Brien also reached out to the UWM, the Milwaukee Art Museum, and Greenfield School District Art Department and received interest but no firm commitments at this time. The Board has agreed to extend the deadline for submissions to allow further discussion at the next meeting.
- B. Report, discussion and decision regarding the Library Board's 2020 Operating and Capital budget request to the City of Greenfield. Ms. O'Brien reported that the Library's requested tax levy has been approved by the mayor in his executive budget. Some of the Library's proposed plans like the sorting machine and pergola patio would require partial funding from the fund balance. Mr. Flemming expressed concern about relying on fund balance to cover budgeted items. Ms. Haiser asked Ms. O'Brien to create a report indicating what a library budget would look like if we don't rely on the fund balance to meet budget shortfalls.

C. Report and discussion of library services during the Covid-19 health emergency. Ms. O'Brien reported that the library is back to pre-pandemic hours and levels of service. He will advise the Library on how best to meet safety and structural standards in the installation and support of the mobile. Also, Ms. O'Brien reported she had invited staff members to give feedback on any concerns they might have that the mobile would interfere with their work. No concerns have been brought forward. 9. Old Business:

- A. Report, discussion and decision regarding a status review of the 2017-2021 Strategic Plan in light of the pandemic and post-pandemic conditions. Ms. O'Brien presented the board with a copy of the Greenfield Public Library Strategic Plan 2017-2020 and the status of each goal. Many goals have been met. Two goals were partially met—the hire/retainment of staff with foreign language skills; and outreach to Middle Eastern youth. These goals will be continued to be worked on. Three goals were not met due to the Covid-19 pandemic: sign language training for staff, acquisition of Spanish and other foreign language materials, and development of services for homebound patrons. Ms. O'Brien will be looking into sources to expand materials available to those patrons needing foreign language options.

It was noted that during Covid, the curbside service did meet some of the needs of homebound patrons or those not able to access the library fully in other ways. Curbside services will likely be continued and other programs may be developed in the future to accommodate the handicapped and homebound. The 3 goals not met will remain in the strategic plan going forward. There was consensus it would be worthwhile for staff to continue implementing the existing plan.

B. Report and discussion of library services during the Covid-19 health emergency.
Ms. O'Brien reported that the library is back to pre-pandemic hours and levels of service. At this time the Board has maintained the mask requirement due to younger children not yet being vaccinated and Covid numbers in WI still high.
